Town Warrant

(L.S.) THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Hampton Falls in the County of Rockingham, in said State, qualified to vote in Town Affairs.

You are hereby notified to meet at the Town Hall, in said Hampton Falls, on Tuesday, the fourteenth day of March next, at ten of the clock in the forenoon to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.

3. To choose a director to serve on the board of the Exeter, Hampton and Amesbury Street R. R. for the ensuing year; pursuant to the vote as passed October 6, 1919.

4. To see if the Town will vote to increase the amount to \$500.00 to be paid to the E., H. and A. St. R. R. for the term of five years, provided there is a deficit in the operation of the road; and to raise and appropriate the money necessary therefor.

5. To consider rebuilding the Exeter road bridge and raise and appropriate the money necessary for the same.

6. To see if the Town will co-operate with the State to eradicate the White Pine Blister Rust in the Town, and raise and appropriate the money for same.

7. To raise and appropriate the money to paint and repair the Library.

8. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this thirteenth day of February, in the year of our Lord nineteen hundred and twenty two.

WILLIAM H. McDEVITT,
GEORGE F. MERRILL,
PERLEY E. LADD,

Selectmen of Hampton Falls.

A true copy of the Warrant—Attest:

WILLIAM H. McDEVITT,
GEORGE F. MERRILL,
PERLEY E. LADD,

Selectmen of Hampton Falls.

School Report

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Hampton Falls School Board:

I am pleased to submit my third annual report as Superintendent of Schools. I also transmit to you the report of the School Physician, and the tabulation of the customary School Statistics.

WORK OF THE YEAR

A careful diagnosis of the scores made in the Standard Tests, which were given in the fundamental subjects last spring, shows considerable improvement in the rate of Reading; the low scores were made in grade 1 at the North School, in grades 1, 3, and 4 at the East School and in grades 5 and 6 at the South School. In comprehension, all grades, except the 5th at the South School, were about normal or even better. High scores resulted in Spelling in every grade in all three schools and good or better than normal scores were made in Composition, in which subject the previous year practically all grades were below Standard. All grades were fully up to grade in the four fundamentals of Arithmetic, except the 3rd and 4th at the North School. Judging from the results of these Standard Tests, I believe, good progress was made in all schools, in practically all the fundamental subjects last year, with the above exceptions.

One very decided improvement in our work last year over the work of the previous year, is evident from a comparison of the tables of Promotion and Retardation for the last two years. There were not nearly as many retarded last year as in the previous year, and the greater number that were retarded were in the primary grades, where normally the greater amount of retardation should occur. Our teachers last year evidently gave more attention to slow or backward pupils than in the former year as I suggested they must do in my last report.

TEACHERS

We lost last spring, with the exception of Mrs. Eva

D. Simons, all our teachers who had done excellent work for us. Such an overturn in a corps of teachers is commonly very harmful, if not almost disastrous. However, in spite of the great scarcity of teachers, we were fortunate in the selection of teachers to fill the places made vacant. All are doing excellent work considering their professional training and experience. None of them are perfect—few of us are—but with strong backing that we feel justified in expecting from school officials and parents, and from the community in general, we hope to produce satisfactory results.

ATTENDANCE

The per cent of attendance, 89 last year, was the best it has been since four years ago when it was 89.7. The number of cases of tardiness last year was 125 or 12 more than for the previous year. The improvement in attendance was very creditable though there ought not to be more than one third as many tardinesses.

Good regular attendance and punctuality on the part of all pupils is a fairly good barometer of the kind of work any school is doing. When pupils are in their places promptly, one may be reasonably sure their attitude toward the school is business-like and the work of the school will be promptly and probably more efficiently done. The co-operation of parents will do much to make this condition possible.

SCHOOL BUILDINGS

In my report of last year and the previous year, I pointed out some of the defects in our present school plant and organization of the school work, and so will only refer you to those sections for further consideration. Personally, I do not believe the parents in Hampton Falls will be fully satisfied with the progress of your children in school, until you are able to consolidate all your schools in one central school, where you will be able to organize the work so that there shall not be more than three grades to each teacher.

Since it will be necessary to remodel considerably our present buildings, if we continue to use them, to meet with the permanent approval of the State Board of Education, possibly the best and wisest solution of the whole problem would be the erection of, at least, a three room building, where we could consolidate all our

schools. The expense of remodeling our present buildings and the keeping of them in good repair would in the course of not many years go a long way toward a new, properly arranged building of brick or stone, which would require few repairs for a great many years to come. Besides, probably our present buildings could be disposed of for much more than they originally cost. An adequate and efficient school system is one of, if not the best, investments that a town can possess and increases the value of all property and also the population. Good schools usually increase the population of a town to such an extent that they do not increase the tax rate. In the end they are paid for by the relative increase in property held. I recommend that the board take proper measures to bring this matter before the voters of the district at the annual meeting, to see what action they will take toward the erection of a new building, which will satisfy the most modern requirements of such a structure.

HEALTH SUPERVISION

A study of the report of the school physician shows good results obtained, I believe. Total number of defects found last year was only 79 whereas the previous year 88 were discovered. Number of cases treated last year, or 26, which was almost one third the number of cases found the previous year, was more than four times as many as were treated after the former examination. The most frequent defect found again proves to be defective teeth, showing the need for a dental clinic for Hampton Falls children. The results of the Health Supervision, I believe, show the need of a school nurse for the very important "follow up work," in getting more pupils treated, thereby making them better mentally as well as more physically fit for their school and life work. Possibly Hampton Falls might be able to make some arrangement for the part time services of the school and community nurse of either Hampton or Exeter, with the schools boards of these towns.

SCHOOL COSTS

One thing, which I believe will be interesting to you is the comparison of costs of schools in the different districts of this Union for last year. I have com-

puted the same on the basis of cost per pupil of average membership.

Cost Per Pupil of Average Membership

Newington	\$60.98
Newcastle	60.80
Rye	55.09
North Hampton	113.80
Hampton	43.23
Hampton Falls	63.39
Seabrook	48.25

These figures were obtained by omitting extraordinary payments, such as for repairs, remodeling, etc., and counting only the necessary running expenses of the schools. They illustrate to a certain extent the business efficiency of the management of all our schools, by the different school boards, at a time when all school costs have been mounting rapidly. You will note the cost per pupil of average membership is a little more for Hampton Falls than it is for a majority of the towns of the Union. This lesser cost in some of the districts does not necessarily mean better management, however, since we must take into consideration the efficiency of the service rendered as well as the figures. The principal reason for this greater cost is the fact that we have less pupils per teacher than in the other districts, with one exception. The Board is to be congratulated since you have been able to keep at a comparatively low level the expenses of the schools, at a time when all school costs, such as teachers' salaries, textbooks, supplies etc., have just about doubled in price.

In closing, I wish to express my appreciation of your counsel and cordial support, and of the co-operation of the parents and teachers in making the school work a success.

Respectfully submitted,

C. H. WALKER.
